Abstract (en)
A clip assembly (10) for attaching an optical scanner mirror (50) to an associated mounting structure (72) including a U-shaped clip body (12) for resiliently, snappingly engaging the mounting structure (72) for holding the clip assembly (10) in stationary relationship with the mounting structure, and a compliant member (14) integrally formed with the clip body (12) for urging the mirror (50) against the mounting structure (72) such that the mirror is resiliently held in stationary relationship therewith.
