Abstract (en)

Valve assembly consisting of a mixer part, an inlet end-fitting and a bolster, the inlet end-fitting being solidly fastened to the hot- water and cold-water pipes to which it is fixed. The mixer part and the inlet end-fitting are removably fixed one on top of the other by a clamping means consisting of a screw. Sealing is provided by a seal in the form of a profiled disc which is housed between the mixer part and the inlet end-fitting without maximum pressure.
