Abstract (en)

[origin: EP0399467A1] A deflecting unit of a color cathode ray tube is constituted by a main deflecting section (66) whose deflecting center is located on a phosphor screen side from an optimal deflecting center of the color cathode ray tube (50) and at least one sub deflecting section (68) whose deflecting center is located on an electron gun assembly (62) side from the optimal deflecting center of the color cathode ray tube.
