Abstract (en)
[origin: EP0400664A1] A lifting and transporting device for patients or handicapped persons has a supporting device (17) adjustably attached to a base part (1). The base part (1) is mobile, and a crane jib (9) projects freely from the base part (1) and can be pivoted about a vertical axis in a vertically adjustable manner. The supporting device (17) is pivotable about a vertical axis and attached to the front end of the crane jib (9, 14).
