Abstract (en)

[origin: EP0401042A2] A group (117) of masking members consisting of a plural number of flat type masking members (111) each of which has an adhesive layer (114) on one side and said masking members (111) are placed one upon another and mutually adhered by said adhesive layer thereof, is provided in the present invention. Further, an attaching method employing a masking tool (120) in which said group of masking members is put is provided in the present invention.
