Abstract (en)
[origin: WO9007364A1] The telestudio has at least one wall (2) of a room (1), consisting of a multisectional screen (5) whose cells (6) are movable and form a multi-plane three-dimensional screen space-variable system. The telestudio has at least one projector (7) transmitting the information accompanying the teletransmission to at least two cells (6) of the screen system which varies in space and time.
