Abstract (en)

The present invention relates to a volute (1) for motor-driven fans, which volute comprises a first side panel (2) and a second side panel (3), a curved band (4) interposed between said side panels and an impeller (5). The side panels (2, 3) are specularly identical to each other and are united with the curved band (4) by means of a respective forced joint; said side panels are provided with openings (6, 7), whose diameter is shorter than the outer diameter of the impeller (5).
