Abstract (en)
[origin: WO9006886A1] According to the invention, the locking box consists of a cardboard casing (2) and at least one seal end (3) forming the bottom and the lid of the box. The seal end (3) is a separate part made of plastic material. It comprises on its sides (34) a set of joggles (35) which co-operate with lug-shaped securing means (25) provided with notches (26) arranged at one of the ends at least of the casing (2). Application: for the packaging of all types of products, and in particular, for the packaging of bottles.
