Abstract (en)

[origin: WO8909789A1] A human monoclonal antibody which: (a) binds specifically to viruses of the serotype 1 group of the rabies group of Rhabdoviridae, and (b) neutralises said viruses; is useful for treating rabies in an infected individual and also for assaying for such a rabies virus.

Abstract (fr)

On a mis au point un anticorps monoclonal humain lequel (a) se lie spécifiquement à des virus du groupe sérotype 1 du groupe Rhabdoviridae de la rage et (b) neutralise lesdits virus. Il est utile pour le traitement de la rage chez un sujet contaminé ainsi que pour le titrage d'un tel virus de la rage.
