Abstract (en)
[origin: EP0407677A1] A refuse container, wherein a tubular or box-type top part (1 or 1') which is closed at one end face, can be pushed onto a corresponding bottom part (2), the outer contour of the bottom part (2) being correspondingly matched to the inner contour of the top part (1 or 1') and blocking means being provided which have to be overcome or removed and which prevent the two parts from being pushed completely one inside the other in a configuration with the smallest volume. <IMAGE>
