Abstract (en)

[origin: WO8907605A1] The present invention discloses a nucleic acid and amino acid sequence for the cryD protein of Bacillus thuringiensis var. israelensis. The protein encoded by the gene is shown to have mosquitocidal activity. Also provided are insecticidal compositions employing the protein.

Abstract (fr)

Cette invention concerne une séquence d'acides nucléiques et d'acides aminés pour la protéine cryD de Bacillus thuringiensis var. israelensis. La protéine codée par le gène présente une activité insecticide contre les moustiques. On a mis au point des compositions insecticides employant la protéine.
