Abstract (en)
[origin: WO9008561A1] A urinary channeling device (10) for in vivo use by incontinent human females has a body of a size and shape that generally matches that of the natural body cavity located between the urethral orifice of labia majora. The body (11) is formed with a hole therethrough to which a tube (20) is mounted.

Abstract (fr)
Un conduit urinaire (10) utilisable in vivo par des femmes souffrant d'incontinence comprend un corps de dimensions et de forme correspondantes à celles de la cavité corporelle naturelle située entre l'orifice urétral et les grandes lèvres. Le corps (11) est traversé par un canal dans lequel est monté un tube (20).
