Abstract (en)

An alarm siren is described which combines the advantages of a rotating sound generator (360 DEG all-round radiation characteristic, high acoustic power, high efficiency, simple design, robustness) with the advantages of a pneumatically operated system (independence from mains, good storability of energy). <IMAGE>

Abstract (de)

Beschrieben wird eine Alarmsirene, die die Vorteile eines rotierenden Schallerzeugers (360 °-Rundum-Abstrahlcharakteristik, hohe akustische Leistung, hoher Wirkungsgrad, einfache Bauweise, Robustheit) mit den Vorteilen eines pneumatisch betriebenen Systems (Netzunabhängigkeit, gute Speicherbarkeit der Energie) kombiniert.
