Abstract (en)
[origin: EP0417372A1] The invention relates to a table flag holder intended as a decoration for an office, a table or the like. <??>The flag holder (1) is made up of a base (2) on which are arranged one or more poles (3) carrying a flag (4). According to the invention, the holder comprises means for orienting radially on the base (2) each of the flags (4). These means take the form of, for example, an insertable part of the pole (3) the tip of which is machined to form a peg in a mortice-type orifice formed in the base (2). <??>The invention is of relevance to manufacturers of office accessories.
