Abstract (en)

[origin: EP0417393A2] The invention relates to a device for mounting a set-out scissor mechanism on a frame, the set-out scissor mechanism having a guide housing (1) with a fastening web (2) for components held or guided therein. So that set-out scissor mechanisms completed at the factory can also be mounted on the building site by simple means, the fastening web (2) is to have at least one orifice (3), and there is a mounting strip (4) which is to be fastened to the frame and which has at least one projection (6) engaging into the orifice of the fastening web (2) and spanning the fastening web (2), the mounting strip (4) also carrying an abutment (10) engaging on an end face of the guide housing (1). <IMAGE>
