Abstract (en)

[origin: WO9009805A1] Disclosed herein are eleven human lymphoblastoid cell lines producing monoclonal antibodies directed against human immunodeficiency virus (HIV) proteins gp41 and p24. Also provided are methods for treating HIV-infected individuals using the human monoclonal antibodies and pharmaceutical formulations comprising effective amounts of the human monoclonal antibodies.

Abstract (fr)

L'invention concerne onze lignées cellulaires lymphoblastoïdes humaines produisant des anticorps monoclonaux dirigés contre les protéines gp41 et p24 du virus d'immunodéficience humaine (VIH). L'invention concerne également des procédés de traitement d'individus atteints du VIH à l'aide des anticorps monoclonaux humains, ainsi que des préparations pharmaceutiques comprenant les anticorps monoclonaux humains en quantités efficaces.
