Abstract (en)  
[origin: EP0420466A1] A credit supply system 10 includes a code-generating means 12 for generating a code in response to the provision of predetermined information by a consumer and for supplying the consumer with the code in a discernible format, the code including data representative of a predetermined sum of funds. An operating means 14 is operable by the consumer and is connected to a device 30 to be operated, the operating means 14 including an entering means 32 for enabling the consumer manually to enter the code into the operating means 14, the operating means 14 controlling the device 30 to provide the consumer with goods or services to the value of the sum of funds encoded in the code.
