Abstract (en)
[origin: WO9013240A1] A support system, in particular for offices and home workshops, has work and storage surfaces, which can be easily adjusted, in particular vertically. The height can be adjusted by preprogramming. The system is therefore suitable for prophylaxy and therapy of postural defects.

Abstract (fr)
Ce système est destiné en particulier aux bureaux et aux ateliers à domicile. Ses surfaces de travail et d'entreposage se déplacent facilement, en particulier en hauteur. En modifiant progressivement la hauteur, on peut prévenir ou soigner les problèmes posturaux.
