Abstract (en)
[origin: EP0423578A2] Provided for mounting or insertion of a fuse in a base is a casing which is formed from a pot-shaped head (10) and a metal sleeve (13) connected thereto, into which the fuse (17) can be inserted. In order to improve the view of the fuse, the head (10) is produced completely from electrically insulating material which is clearly transparent. <IMAGE>
