Abstract (en)

The invention relates to high-temperature-resistant cables, which have high-temperature-resistant quartz fibres, preferably in the form of a web, as an overlapping shroud for temperature protection which ensure that the function of the cable is maintained in the event of a fire for a relatively long period of time. <IMAGE>

Abstract (de)

Die Erfindung betrifft hochtemperaturbeständige Kabel, die hochtemperaturbeständige Quarzfasern, bevorzugt in Gewebeform, als überlappende Bandierung als Temperaturschutz aufweisen, die den Funktionserhalt des Kabels im Brandfall über einen längeren Zeitraum gewährleisten.
