Abstract (en)
[origin: EP0428113A1] A stand for containers in which materials which pollute the soil are stored, there being provided beneath the container (26) a collection device (32), which extends horizontally at least to the same extent as the base area of the container (26). Above the container (26) a sectional roof (20) made of segments (27 - 29) is arranged, the segments (27 - 29) being guided in rails (30) running along at the sides of the container (26). <IMAGE>
