Abstract (en)
[origin: WO9000062A1] Disclosed according to the invention are immunogenic proteolytic fragments of a glycoprotein complex (gC-I) of human cytomegalovirus (HCMV). These fragments are useful for production of antibodies to HCMV and for diagnosis of HCMV infections.

Abstract (fr)
L'invention concerne des fragments protéolytiques immunogènes d'un complexe de glycoprotéine (gC-I) de cytomégalo virus humain (CMVH). Ces fragments sont utiles pour la production d'anticorps contre le CMVH et pour le diagnostic d'infections dues au CMVH.
