Abstract (en)
[origin: WO9015731A1] A tensioning ratchet for a clamping strap (8) with a frame housing (1) securing the fixed end (7) of the clamping strap (8) between its side-walls (5, 5'), with a spindle (11) rotatably secured to the frame housing (1), bridging the space between the side-walls (5, 5') and bearing a tensioning lever (17) which can be secured against rotation for winding the clamping strap (8) up from its free end and with a catch acting between the frame housing (1) and the spindle (11) to lock the position reached by the operation of the tensioning lever, is fitted with a directional safety catch (70) and a directional tensioning catch (80) which can be changed over in accordance with the locking direction.
