Abstract (en)

[origin: WO9002422A1] In a method of manufacturing a cathode electrode matrix for a sodium/sulphur cell, a block of fibrous material is impregnated with a cathodic reactant material before being cut into parts which are then fused together to form the matrix.

Abstract (fr)

Dans un procédé de fabrication d'une matrice d'électrode de cathode pour une pile au sodium/soufre, un bloc de matière fibreuse est imprégné d'un réactant cathodique avant d'être coupé en parties que l'on fusionne ensuite pour former la matrice.
