Abstract (en)

[origin: EP0431642A2] The invention relates to a safety cable (10) made by stranding or interlacing, having coupling extensions at both ends (10a, 10b), especially for use in bicycle locks (12). The safety cable (10) is formed by the combination of a core cable (14) and of at least one hollow cable (16) surrounding this core cable (14). <IMAGE>
