Abstract (en)

[origin: EP0433128A1] Supersonic guided missile, comprising a fuselage (2, 2', 2'') terminated at the front by a nose (3, 3', 3'') and at the rear by an end cap (4, 4', 4''), and fitted on the outside with fixed rear fins (5, 5', 5''), characterised in that it comprises, longitudinally at a distance from the centre of gravity (G1) at least one flap (7, 7', 7'') called a "spoiler" which moves between a retracted configuration inside the fuselage and an active transversely deployed position in which this flap protrudes laterally from this fuselage. <IMAGE>
