Abstract (en)
[origin: EP0435763A1] The apparatus, for payment by bankers card, comprises means (12) for reception of a bankers card (19), means (13) for reception of a bill (20), a printing drum (5,6) with rotating wheels, each carrying a series of characters and a moveable carriage (3) carrying a print roller (22). Each drum wheel is integral in rotation with a coding disk bearing a series of codes associated respectively with the characters of the wheel. Means of reading of the codes and means (25) controlled by the means of reading are provided to record the angular positions of wheels and thus the values of the characters. <??>The payment data can be transmitted to a banking processing centre. <IMAGE>
