Abstract (en)

[origin: DE4002102A1] A guillotine for trimming piles of sheet material has a table to receive the material, a pusher, and a vertically moving cutter together with a press arm. A movable fence (12) is fixed at an angle behind the blade of the cutter (7) in such a way that its vertical plate is in the same plane as the cutter blade (7), and is used to straighten the vertical edges of the sheets.
