Abstract (en)  
[origin: EP0442169A2] The invention relates to a lamp, in particular a display projector, having a lamp housing 1, a reflector 2, 4 of a lamp 3, in particular a discharge lamp, a removable frame 4 for the cover plate, and two mounting bars 10, attached to the housing 1 and fastened adjustably to supporting points 11 fixed to the housing, for auxiliary parts 7, such as lenses, screens, stops and the like. For the purpose of easier mounting when exchanging the lamp 3, it is provided according to the invention that the frame 6 for the cover plate 5 is fastened to the mounting bars 10, and that the supporting points fixed to the housing are constructed as sliding/swivelling bearings 11. In this way, the auxiliary parts 7 can easily be removed from the lamp housing 1 together with the frame 6 supporting the cover plate 6 and the outer reflector 4, and folded down, so that there is easy access to the opening 15 of the lamp housing 1 for the purpose of easily exchanging the lamp 3. <IMAGE>
