Abstract (en)
[origin: EP0442521A2] Rolling container, for example for writing desks or laboratory tables, having a container housing which runs on guide rollers and bearing rollers blockable via a foot switch and which has at least one drawer compartment in which a drawer is held in a pull-out manner. A device (50, 60, 70) coupled to the foot switch (110) is so designed that it blocks the drawer (40) with the foot switch (110) released and frees it with the foot switch (110) actuated. <IMAGE>
