Abstract (en)

[origin: EP0447282A1] The present invention relates to a package of cardboard or similar material for a plurality of objects, comprising a body consisting of a lateral belt and a bottom, defining a volume for receiving the said objects, and at least one sheet of shrinkable synthetic material fixed to the said body and intended to cover the said plurality of objects and to immobilise the latter inside the said volume by shrinking the said sheet. <??>According to the invention, the said bottom (101) is constituted by a plurality of flaps (9a-9d) each connected by a folding line (7) to the said lateral belt (102) along the lower longitudinal edge of the latter, and the said sheet (11a, 11b) is fixed to at least one of the said bottom flaps (9a-9d) covered, at least partially, by at least one other of the said bottom flaps (9a-9d), in such a way as to clamp the said sheet between the said flaps. <IMAGE>
