Abstract (en)

[origin: EP0447315A1] The labelling and protection assembly comprises, formed in one part, a cap (7) which can be fitted overlapping the operating member (4) of the valve (2) and a label body (8) extending from the cap, overlapping in front of the outlet pipe (5a, 5b) of the valve (2), and at least one portion (12) capable of cooperating with at least one element integral with the container in order to lock the assembly in position fitted to the valve, the assembly comprising at least one manually destructible zone (14) to allow the rapid detachment from the valve, in a non-reusable manner, of the labelling assembly. <IMAGE>
