Abstract (en)
[origin: EP0448192A1] In a pin-on badge formed from a profiled plastic section (1) and an attachment pin (2), the profiled plastic section has a holder (3) for a push-in strip (4) and a guide channel (5) for the attachment pin (2). The guide channel is of C-shaped design and permits the closed attachment pin (2) to be pushed from one of the two sides into the guide channel (5). A stop (10) serves to lock the attachment pin in the guide channel (5) and is formed by a recess introduced into one of the lips (14, 15) of the part of the profiled plastic section (1) forming the guide channel (5). <IMAGE>
