Abstract (en)  
[origin: WO9004632A1] Transgenic animals carrying and expressing human MDR1 gene have been produced. These transgenic animals serve as a useful model for testing the efficacy of high dosage chemotherapy and for the development of novel chemotherapeutic agents against cancers.

Abstract (fr)  
Des animaux transgéniques portant et exprimant le gène MDR1 humain ont été produits. Ces animaux transgéniques servent de modèles utiles pour tester l'efficacité d'une chimiothérapie à haute dose et pour le développement de nouveaux agents chimiothérapeutiques contre les cancers.
