Abstract (en)
[origin: EP0451572A2] A grinding wheel with an abrasive (1) comprising abrasive grain, binder and preferably grinding-active and grinding-inactive fillers. The abrasive (1) is provided with at least one wearing fabric (3), which is embedded in the abrasive (1) on a flat side thereof and either has electrically conductive metal filaments (4) or there are electrically conductive metal filaments (4) woven into the fabric (3). The electrically conductive metal filaments (4) or foil strips (5) lie at least partially on the surface of the abrasive (1). <IMAGE>
