Abstract (en)  
[origin: EP0453775A2] Package made of cardboard or similar material with two side walls and two end walls, with a bottom formed by four flaps and with a lid likewise formed by four flaps, and with a removal opening for flowing or pourable filling material, which is arranged at the upper end of one end wall. At least one of the lid flaps articulated on the side walls is set back in relation to the end wall provided with the removal opening and this end wall is, in its upper section which has the removal opening, folded back as far as contact against this lid flap. <IMAGE>
