Abstract (en)
A casing sheet is described which substantially comprises a spunbonded fabric which has been given a water-proof finish by means of a coating agent and comprises filaments of an organic fibre-forming material. The casing sheet contains a structure in the form of a weaving pattern, which has been embossed on the spunbonded fabric during its production, on at least one surface, in order to increase its slip resistance.

Abstract (de)
Beschrieben wird eine Schalungsbahn, die im wesentlichen aus einem mit einem Beschichtungsmittel wasserdicht ausgerüsteten Spinnvlies aus Filamenten aus organischem faserbildenden Material besteht. Die Schalungsbahn weist auf zumindest einer Oberfläche eine Struktur in Form eines Webmusters zur Erhöhung der Rutschfestigkeit auf, welches dem Spinnvlies bei dessen Herstellung aufgeprägt wurde.
