Abstract (en)

A flexible tandem package (100) which can be readily separated into two, distinct recloseable packages (10; 110, 210) and the method for making the same is disclosed. The package includes first and second sheets (14, 16; 114, 116) sealed to opposite surfaces of a double recloseable seal fastener strip (127). The film sheets are further sealed hermetically together (114, 244) around the periphery of each of the easily separable two distinct packages. <IMAGE>
