Abstract (en)  
[origin: WO9107553A1] The mounting assembly (1) of the invention comprises a backing plate (2) with a layer of insulation (3) on one side. Since the mounting assembly (1) is fitted with the backing plate (2) on the interior side, thus ensuring that the backing plate (2) experiences virtually the same environmental conditions as the rest of the insulation, condensation in the area of the mounting assembly is avoided.
