Abstract (en)

[origin: EP0455962A2] The invention relates to an apparatus according to the preamble of Claim 1. The object of the invention is to minimise the constructional and tooling outlay of the apparatus known in the prior art. This object is achieved in the apparatus according to the preamble of Claim 1 by arranging all of the devices (8, 9, 13, 21, 22) in alignment for the purpose of the linearity of the conveying path of the element. <IMAGE>
