Abstract (en)
[origin: WO9008983A1] A method for stabilizing a charge director solution, and a charge director composition made by this method, whereby a charge director is mixed with a solvent and a polar monomer species and a polymerization reaction is initiated and allowed to progress to completion.

Abstract (fr)
Procédé permettant de stabiliser une solution de contrôle de charge, et de produire ainsi une composition de contrôle de charge qui consiste à mélanger un agent de contrôle de charge avec un dissolvant et une espèce monomère polaire, à provoquer et mener à bien une réaction de polymérisation.
