Abstract (en)
[origin: WO9009651A1] An indicator for attachment to the hook (H) of a moulded plastics garment hanger. The indicator has a body (1), moulded from plastics material, with spaced flat sides (2) and (3) forming a cavity (4) which is dimensioned to receive a top web (W) of the hook (H). The body (1) engages the web (W) at ends (9, 10) of the opening to the cavity (4) to retain the indicator in position on the web (W). The body also has slots (5) and (6) in the sides (2 and 3) adapted for engagement by abutments (A) on the web (W) to retain the indicator in position on the hook (H).
