Abstract (en)
[origin: WO9008952A1] A sensor for measuring absorption of electromagnetic radiation (4) by a sample (3) comprising a heat conducting solid element (1) which is transparent to said radiation and is in thermal contact with a thermal detector (2) which measures the increase in temperature induced in the sample (3) by absorption of radiation (4).

Abstract (fr)
On a mis au point un capteur mesurant l'absorption de rayonnement électromagnétique (4) par un échantillon (3), comprenant un élément solide (1) thermoconducteur, transparent audit rayonnement, et en contact thermique avec un détecteur thermique (2) mesurant l'augmentation de température induite dans l'échantillon (3) par absorption de rayonnement (4).
