Abstract (en)

[origin: EP0459892A1] Equipment for projecting a coating product, especially a paint, in which the flow rate may be constantly and accurately adjusted as a function of the surface to be covered. According to the invention, the equipment comprises flow-controlling means (26, 25) and at least the flow-rate measuring means (26) of the control assembly is placed in the vicinity of the projecting device (13), this measurement means being, for example, an electromagnetic-type flow meter. <IMAGE>
