Abstract (en)
[origin: EP0460570A1] The mobile installation (1) consists of track vehicles (5) for the transport of new sleepers (12), a sleeper-laying vehicle with devices for laying the new sleepers (12) and with longitudinal conveyors (9, 10) for the transport thereof, and of a gantry crane (21) which can be displaced in the longitudinal direction of the vehicle assembly and which is equipped with gripping devices (22) for the transport of the new sleepers (12). Arranged in the transfer region (32) of the new sleepers (12) from the gantry crane (21) to the longitudinal conveyor (10) is a collecting means (33) for collecting and for transporting distance pieces (27) which are provided for spacing the new sleepers (12). <IMAGE>
