Abstract (en)

[origin: EP0463334A2] A fitment tool (21) is used for fixing a heating coil (16) on a dielectric material support (13). The heating coils (16) are inserted in slots (24) therein and are held firmly by a magnetic force. Provided in openings (26) in the tool (21) are sprung positioning devices (28) into which the tab (36) of a nail driver (24) can be inserted in order to fix the heating coil on the support (13) by means of brackets. <IMAGE>
