Abstract (en)

A container tipper for automatically gripping socket-fitted refuse bins and overturning them into the body of a motor vehicle, characterised by comprising a rocking structure (12) alignable with the bin (5), a plurality of arms (13', 13"..., 14', 14"....), each having an end block intended to engage a respective socket of said bin, means (19) associated with said arms to move them from a first substantially vertical position to a second position angularly inclined to said rocking structure, means (25) for preventing the rocking of the structure (12) and means (29) for locking the bin onto said rocking structure during its overturning. <IMAGE>
