Abstract (en)
[origin: EP0465374A1] The present invention relates to an apparatus for cleaning and/or stripping all kinds of objects, and for the recovery, neutralisation and discharge of waste water and of the residues resulting from this cleaning and/or stripping, characterised in that it combines a settling tank (1) provided at the top with a grid (2) acting as a washing support, and a mast (3) provided with a handling winch (4) with radial arms (5) that are free to rotate in a horizontal plane, said grid (2) being likewise rotatable, said radial arms (5) and this same grid (2) being thus able to move the objects undergoing treatment between different positions for stripping (6), rinsing (7) and/or neutralising (8) which are arranged around the outside of said settling tank (1). <IMAGE>
