Abstract (en)

[origin: EP0465800A1] The detergent dispenser compartment (4) is designed as a drawer and is movable by a motor (11) by means of a flexible adjusting rod (13). Many advantages can thereby be combined: installation under difficult conditions of space; functional reliability despite the simple guidance of the drawer with the danger of tilting; manual operability; simple uncoupling and removal of the drawer for cleaning purposes; drive insensitive to water splashes. <IMAGE>
