Abstract (en)

[origin: EP0466967A1] An undercarriage (1) for a treatment table (2), in particular an operating table, in which a base plate (3) is provided with three pairs of drive rollers (4,4;5,5;6,6). The base plate (3) can in this case be supported either on one, two or three pairs or drive rollers (4,4;5,5;6,6). In this way it is possible to achieve a perfect straight movement or else a pivoting of the treatment table (2) at any desired pivoting angles. <IMAGE>
